

National Interdisciplinary Conference on Sustainable Development Goals-2026 (NICSDG-2026)

Call For Papers

Conference Theme: Technology, Justice, and Institutional Resilience for Sustainable Development

Conference Date: 17-18 July, 2026

THEME 1

Integrated Innovations for Achieving the Sustainable Development Goals

Track 1: Sustainable Engineering & Green Technologies

Exploring renewable energy, circular economies, and resilient infrastructure to combat climate vulnerabilities while upholding governance stability.

Track 2: Policy, Law, and Institutional Frameworks for SDGs

Critiquing constitutional amendments and legal reforms that embed SDGs, ensuring the rule of law supports poverty eradication and equitable growth.

Track 3: Social Innovation, Inclusion, and Human Development

Tackling marginalization through community-driven models that counter nepotism and promote education, health, and gender parity.

THEME 2

Sustainable Futures: Technology, Governance, and Social Equity

Track 4: Digital Transformation for Sustainable Development

Harnessing AI, blockchain, and data governance to enhance transparency, combat corruption, and scale SDG delivery in fragile political contexts.

Track 5: Justice, Ethics, and Legal Dimensions of Sustainability

Probing ethical dilemmas in constitutional crises, advocating meta-legal values that prioritize human rights and intergenerational justice.

Track 6: Equity, Society, and Development Studies

Analyzing social fabrics strained by exclusion, proposing inclusive policies that transform protests into constructive societal evolution.

THEME 3

Pathways to Sustainable Development: Interdisciplinary Approaches for Global Challenges

Track 7: Climate Action, Environment, and Resilience

Strategies for adaptation amid upheavals, linking environmental justice to constitutional protections for vulnerable communities.

Track 8: Peace, Governance, and Sustainable Institutions

Reimagining statecraft from bargaining tools to SDG anchors, fostering peace through robust, lawful institutions.

Track 9: Global Partnerships, Economics, and Development Models

Forging cross-border alliances and innovative financing to mitigate ripple effects of regional instability on worldwide sustainability.
